

PSM Outpatient Diagnostic Imaging Services: price list

Outpatient Ultrasound: \$530.00

Outpatient CT single body region w/brief sedation: \$1350.00 to \$1750.00*

Outpatient CT two body regions w/brief sedation: \$1785.00 to \$2170.00*

Outpatient CT single body region w/full anesthesia: \$1750.00 to \$1900.00*

Outpatient CT two body regions w/full anesthesia: \$2100.00 to \$2350.00*

* Estimate ranges on CT are present to account for additional needs of patients that may include contrast studies, IV fluids, Stat radiologist reporting, or prolonged hospital stay after anesthesia/sedation recovery. Patient-specific estimates may be available following record review. Final decisions regarding sedation vs full anesthesia are at the attending doctor's discretion.

PSM Outpatient Diagnostic Imaging Services: scheduling

Outpatient Ultrasounds: Outpatient US can be scheduled Tuesday through Friday from 9 am to 4 pm, availability dependent on internist's schedule. Monday appointments may be available in special circumstances, please call to discuss. **

Outpatient CTs: Outpatient CTs can be scheduled Wednesday and Thursday. Additional days will be added based upon demand. The patient will need to be dropped off by 9 am with the expectation that they will be in the hospital for the day. CT scans will take place during afternoon procedure blocks. Pick up times will be communicated to the owner after imaging has occurred. **

**Please use the appropriate referral forms and send the required records prior to scheduling an appointment. Appointment scheduling will be dependent on receipt of proper documentation
